COURSE DIRECTORS

PhD. Tran Chi Cuong

General Director of Can Tho
S.I.S Hospital Can Tho

Prof. Blaise Baxter

Society of Neurointerventional Surgery
(SNIS) Foundation Chair, USA

Prof. Jan Gralla

Director of the Neuroradiological
Institute, Inselspital, University
of Bern, Switzerland

Goals

The main objective of the Continuing Medical Training Program is to update the diagnosis & treatment of stroke - from theory to practice. It is to connect doctors from many related disciplines with stroke treatment.

The program focuses on Stroke (ischemic, bleeding, neurovascular diseases etc.), especially in the Asian population. We will share our experience with stroke treatment consisting technical and clinical tutorials. We believe this training will affect the accurate and effective practice of stroke specialists and neuro-interventionalists with the target of fulfilling the high demand in ASEAN countries. Additionally, we will have particular sessions such as live case demonstrations & figures and animal lab hands-on training in using new R&D devices.

Target Audience

Neurology, neurosurgery, neuroradiology, interventional neuroradiology & emergency doctors.

Faculty

Lecturers will be local, national and international doctors & experts in this or related fields.

Course Venue

The course will take place from 13 to 14 June 2025 at the Sheraton Hotel & the S.I.S General Hospital, Cantho City, Vietnam.

Deadline for Application

Deadline for enrollment in the Continuing Medical Education Program is May 31, 2025.

Attendance fee: 200\$ (including CME, lunch & Gala Dinner at the course).
Attendee cover their own travel & accommodation costs.
